

Nissan Sunderland plant tour

'Sharing the Experience' day

Renault-Nissan Consulting (RNC), the business improvement arm of the Renault-Nissan Alliance, invites you to join us for a 'sharing the experience' tour of the Nissan Sunderland Plant.

This senior level Lean experience enables you to see world class manufacturing first-hand.

Co-hosted by the team at the plant and RNC Lean Experts, you will spend time touring the plant before considering how to apply the learning from the tour to the Lean goals of your organisation.

The day starts with an overview of both the Nissan Sunderland Plant and Nissan's background & philosophy.

You will then visit the shop floor to see Lean in action including:

- Visual management
- Kaizen
- Integrated supply chain
- Team working/supervisor Role
- Standard operations
- Quick response process
- Overall equipment effectiveness
- Shift changeover
- Just-in-time

After the tour we will allow time for discussion and deep-dive on topics of interest to help you apply what you've seen to the lean goals of your organisation, whatever stage of Lean maturity you are at.

SESSION 1

09.00 - 12.30

- Plant overview + Nissan philosophy
- Body shop + press-shop visit

SESSION 2

13.30 - 16.00
